Full stack web developer with a passion for creating positive user experiences. I have practice in Ruby on Rails, JavaScript (ES6), AngularJS, React and Redux. I enjoy problem solving and have an aptitude for learning new languages quickly.

## TECHNICAL PROJECTS

**Trippy** - [Github-Frontend](#) [Github-Backend](#) | [Demo](#)

*Best way to plan trips with your friends*

- + Used JWT to build custom authentication and authorization functionality
- + Built APIs using Ruby on Rails and the MVC pattern
- + Used FourSquare API to make real time fetch requests

**Game Night** - [Github](#) | [Demo](#)

*Great way to play live Rummikub with friends online*

- + Used Firebase to make live connections between friends
- + Used HTML and Javascript to create 'drag and drop' functionality
- + Used mostly custom css to create a clean and fun design

**Musico** - [Github-Frontend](#) [Github-Backend](#) | [Demo](#)

*Best app for playing music of shared interest between friends*

- + Used Firebase to show live updates
- + Used the Spotify api to authenticate users, search playlists and play music.
- + Built it as a progressive web app so that it is compatible with phones and computers.

## TECHNICAL SKILLS
